SHEERVIEW SHADE FEATURES

- A window shading of unique beauty and performance for the finishing touch to your window and room.
- Horizontal fabric vanes float between two layers of soft, knitted sheers to enlighten your view.
- New vane fabrics feature a softer look for your windows.
- Available in widths up to 108" (Woven Fabric) and 116" (Non-Woven Fabric), and drops to lengths of 144" to provide visual elegance to the widest of windows.
- Vanes glide from open to closed to the out of sight position with elegant hardware.
- The Sheerview continuous cord-loop system provides distinctly different variations of vane positions for numerous combinations of privacy, view and light control.
- An adjustable weight system hidden in the bottom-rail allows for the proper on-the-spot adjustment for a balanced appearance in the window.
- Color coordinated, fabric wrapped headrail styles offer you a sophisticated look.
- All Inside Mounted (IB) Shades will have a light gap on the left and right side. The side with the installed Clutch and Cord-Loop will have a slightly larger light gap.
- Easy to install hardware and brackets allows for effortless installations and easy removal for cleaning.
- Sheerview Shades can be ultrasonically or traditionally cleaned to stay bright and beautiful.
- Limited Lifetime Warranty as a commitment to your satisfaction.

HEADRAIL AND BOTTOM-RAIL DETAILS

Shade comes standard with the headrail wrapped in a color matching material, unless otherwise specified.

Fabric Covered Headrail

Cord-Loop Tensioner

The continuous cord-loop enables ease of use of the Sheerview Shade. The Window Covering Safety Council (WCSC) suggests that the Cord Tensioner device be permanently anchored to the window jamb, wall or floor.

Registered Trademark (®)

Cord-Loop Tensioner

Brackets

Easy to install One Clip Brackets, come with shims to even the shade if the window jamb is uneven.

Stoppers

Prevents the bottom-rail from looping up into the headrail when raised up, or with motorization.

Bottom-Rail

PATENT PENDING

Bottom-Rail features an improved design that enables you to experience less light gap when the Sheerview Shade is in the lowered/closed position.

Adjustable counter weight keeps sheer shade level.

MOTORIZED WAND / REMOTE CONTROL

TECHNOLOGY THAT ENHANCES THE LIVING SPACE

AVAILABLE IN TWO MOTOR OPTIONS

OPTION 1: RECHARGEABLE MOTOR WITH WAND CONTROL

OPTION 2: RECHARGEABLE MOTOR WITH RADIO REMOTE CHIP AND WAND CONTROL

- Easy Installation with no Hard Wiring
- Long Lasting Lithium Ion Battery
- Simple UP/DOWN/STOP Control Buttons
- Micro USB for Charging the Battery

WANDS	MSRP COST
Replacement Wand	\$166
CHARGING BRICK / USB CABLE	
Charging Brick	\$28
Micro USB Cable - 6'	\$34

REMOTE CONTROL - OPTIONAL

(MUST ORDER MOTOR WITH RADIO REMOTE CHIP)

- Radio Remote
- Control your Product with a Single Channel or Multi-Channel Remote from up to 100 Feet *up to 20 shades per channel.*
- Remote Attaches to the Backplate Via Magnets, Just Attach the Backplate in a Convenient Place
- No Pull Cords Means This is the Best Product for Child and Pet Safety
- Modern and Sleek Design Fits All Types of Decor

REMOTE	MSRP COST
Single Channel	\$120
Multi-Channel	\$150

Multi-Channel

Single Channel

CHILD SAFETY INFORMATION

The Manufacturer Is Committed to Child Safety regarding Window Coverings.

The Manufacturer has committed to join the Window Covering Manufacturers Association's new safety standards in the efforts to prevent accidents involving children and pets involving accessible cords and by offering other product options that are child-safe custom window coverings.

"Best For Kids" Certified Program

Window Covering Manufacturers Association (WCMA) announced the industry's first third-party certification program designed to help consumers and retailers identify window covering products that are best suited for use in homes with young children.

To be part of the new Best for Kids program, products are submitted to a WCMA-recognized third party testing laboratory where the products are required to and must meet stringent criteria. Once the products meet these criteria, they are "Certified Best For Kids". The Manufacturer has a number of products "Certified Best For Kids".

Child Safety Is Serious Business.

That's why the window coverings industry uses warning tags, warning labels, and other methods to communicate the potential hazards of corded window coverings. The warning label shown below, for example, communicates the important message about cords being a potential strangulation hazard and suggests choosing cordless alternatives or products with inaccessible cords. Blinds and shades that are improperly installed or out of safety compliance can pose a potential strangulation hazard to young children. According to the U.S. Consumer Product Safety Commission, corded window coverings are among the top hidden hazards in American homes.

The Manufacturer Is Committed to Child Safety regarding Window Coverings.

Window Blind Cord Can STRANGLE Your Child.

Keep cords out of children's reach. Shorten cords to prevent reach.
Move crib and furniture away - Children can climb furniture to reach cords.

La cuerda de la persiana puede ESTRANGULAR a su niño.

Mantenga las cuerdas fuera del alcance de los niños. Acorte las cuerdas para evitar el alcance.
Mueva la cuna y los muebles - Los niños pueden subir los muebles para alcanzar las cuerdas.

To learn more about the Window Covering Safety Council's efforts to protect children from potential cord hazards, visit their site at <https://windowcoverings.org>.

Shades greater than 96" incur an additional Net \$94.00 charge per box for each order.

MEASURING

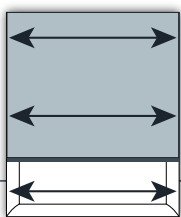

Inside Mount Width (IB)

- Measure the exact width of the inside edge of the window frame. - Top, Middle, and Bottom.
- Make all measurements to the nearest 1/8th inch, round DOWN for width.
- Take the SMALLEST of the 3 measurements, this is the width that you will order.
- Production department will make the necessary deductions to ensure the shade fits inside your window.

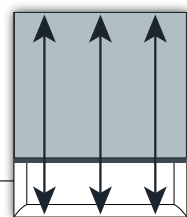

Inside Mount Height (IB)

- Measure the exact height from the top inside edge down to the window sill in 3 places. – Left, Middle, Right
- Make all measurements to the nearest 1/8th inch, round UP for height.
- Take the LARGEST of the 3 measurements, this is the height that you will order.

Outside Mount Width (OB)

- Measure the exact width of the window frame or how wide you would like the shade to be.
- Be sure to measure wide enough to cover the entire window (and trim if desired) to provide maximum light coverage.
- Example: If the window opening is 36" wide, it might be helpful to order 40" if the space allows. This will provide 2" coverage on each side of the window.
- No deductions/additions will be made to the width ordered.

Outside Mount Height (OB)

- Measure the height you would like the shade to be by measuring top to bottom.
- Be sure to measure high enough to cover the entire window (and trim if desired) to provide maximum light coverage.
- Example: If the window opening is 60" high, it might be helpful to order 64" if the space allows. This will provide 2" coverage on top and bottom of the window.
- No deductions/additions will be made to the height ordered.

Cleaning and Care Information

Sheerview Shades are virtually maintenance free. Only periodic vacuuming on a low setting and an occasional feather dusting is needed. The sheer fabric may also be ultrasonically cleaned.

MEASURING

Finished Dimensions:

- Once ordered and manufactured, the width of the fabric cannot be altered. The Manufacturer makes deductions to the width of window shadings depending on the type of mounting indicated. For all mounting types, the fabric will measure exactly the length ordered when the vanes are in the open or “view-through” position. When the vanes are rotated to the closed position, the shading will become 3/8” longer.

Measurement Considerations:

- When closed on an inside mount, a slight furrow may occur on the lowermost sheer section because of contact with the sill. To compensate, slightly raise the shading until the rail begins to lift off the window sill.
- If preferred, the shading can be ordered 3/8” less than the measured height of the window opening. In this case, the bottom rail will be positioned 3/8” above the sill when the vanes are in the open position. Rotating the vanes closed will cause the bottom rail to touch the window sill and thus closing any unwanted space.

Headrail Information:

- The Sheerview comes with a standard headrail wrapped in a *color coordinated fabric with an option of color coordinated aluminum. *Unless otherwise specified.
- *Headrail will measure ordered width minus: 1/8”
- (IB) Fabric will measure ordered width minus: 15/16” (OB) Fabric will measure ordered width minus: 13/16”

Inside Mount

Minimum depth for flush inside mount including installation brackets: 3 1/4”

Outside Mount

Minimum surface area required for mounting: 3/4”

Cord Information:

- Braided polyester cord styles will measure the height indicated below unless otherwise specified.
- Maximum Cord Heights: Polyester Cord - 15 ft.
- Cord can be ordered in custom lengths in one foot increments only.

To see standard cord lengths please see the pricing charts on pages 10 - 16.

NOTE:

- Customer can specify custom cord length.
- Following the WCMA National Safety Standards, all cords will be made 40% of the length of the shade unless otherwise specified.

PRODUCT SPECIFICATIONS AND OPERATION

Shading Operation:

- The Sheerview Horizontal Sheer Shade features the Continuous Cord-Loop System. This system provides the ability to manipulate the shading into various viewing positions. From the closed and retracted position (fabric inside the headrail), lower the fabric by pulling down on the rear of the cord until you reach the desired shading position. Once lowered completely to the window sill, continuing to pull the cord in the same direction will open the horizontal fabric vanes, offering varied views to the outside. To retract the shading, pull down on the front of the cord until the shading reaches the desired viewing mode or fabric position. Shade will not tilt open unless fully lowered.

Hardware:

- **Installation Headrail Brackets**

Multi-faceted bracket system includes breakaway shims to assist in leveling. The bracket also includes easy release lever.

- **Spacer Blocks** - *Upon Request Only*

Spacer blocks project the shading 3/8" from the mounting surface. Use spacer blocks to obtain clearance when obstructions, such as window cranks or door handles, obstruct the movement of shading.

- **Hold Down Brackets** - *Upon Request Only*

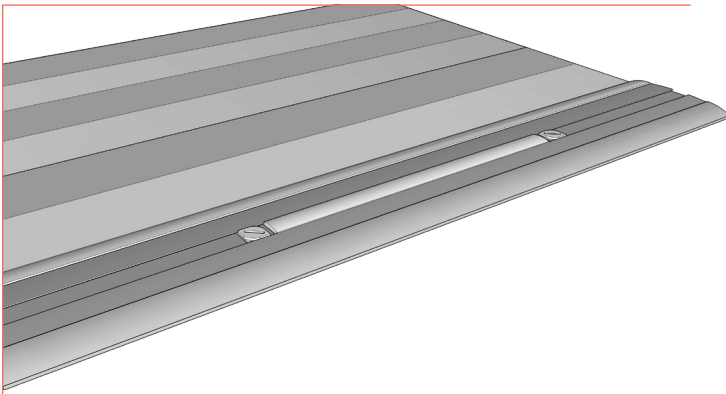

Hold down brackets are made of clear plastic that fit into holes on the end-cap of the bottom rail. Hold downs are generally used to secure the base of the window shading to prevent swaying.

- **Cord Tensioner**

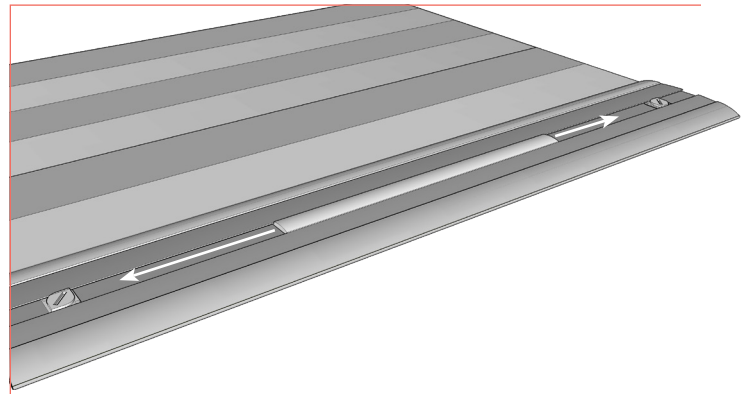

The cord tensioner keeps the cord taut to prevent children and pets from entangling and subsequently injuring themselves. Cord tensioner must be used for this product to comply with the Consumer Product Safety Commission (CPSC) Child Safety Guidelines.

Skew Adjusting Bottom Rail:

- The Sheerview Horizontal Sheer Shades are leveled and weighed in the factory. When installed level, the fabric will not skew when raised. If the headrail is not installed level, skewing can occur that can damage the edge of the fabric. Be sure to follow the instructions below carefully to ensure correct and balanced operation.

Simply turn over the bottom rail and twist with a flat head screw driver both stoppers on the left and right side of the counterweight slide.

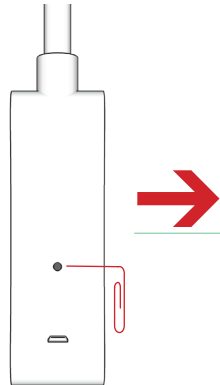

Slide the bar to where the counterweight is needed to combat the shifting of the shades. Twist down with a flat head screw driver on both stoppers in order to once again lock the counterweights.

PROGRAMMING INFORMATION FOR E-SERIES

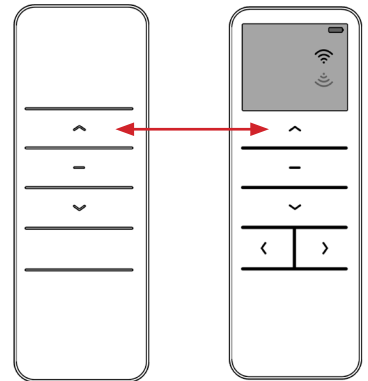

PLEASE KEEP IN MIND THAT OUR E-SERIES PRODUCTS COME PREPROGRAMMED FROM THE FACTORY SPECIFICALLY FOR YOUR WINDOW HEIGHTS AND TO YOUR MOTOR. THIS INFORMATION SHOULD ONLY BE USED IF THE PROGRAMMING HAS BEEN ACCIDENTALLY ERASED OR AT THE ADVICE OF THE MANUFACTURER. PLEASE UNDERSTAND THAT TECHNICAL SUPPORT IS AT THE DISCRETION OF THE MANUFACTURER IN CASES OF UNAUTHORIZED SYSTEM RESETS.

Pairing A Wireless Remote (only if your motor was ordered with the wireless upgrade)

To pair a wireless remote, press and hold the reset button using a paperclip on the back of the wand for approximately 3 seconds looking for the shade to jog once and beep once.

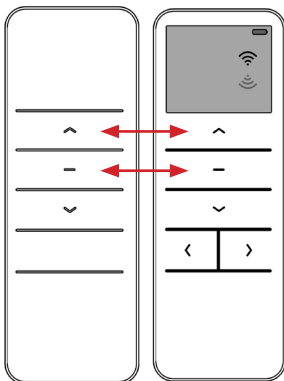

Immediately after the jog and beep press the **up button once** on your wireless remote and the shade will jog once and beep 3 times confirming pairing success. If using a multi-channel remote make sure to have the desired channel selected prior to starting the process.

Setting/Adjusting Lift Heights

If the shade has been reset the lift heights have been reset as well. Use the process below to set new lift heights. If an adjustment needs to be made to existing lift heights the process below is the same except you will need to enter "Adjustment Mode". To enter adjustment mode for the top height press and hold the Up and Stop buttons together for 10 seconds looking for a single jog. To enter the adjustment mode for the bottom height press and hold the Down and Stop buttons together for 10 seconds looking for a single jog.

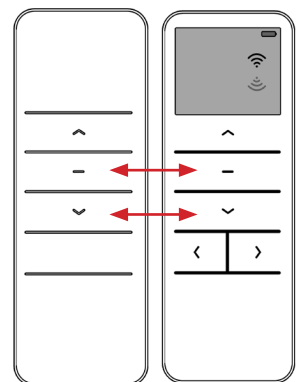

Top Height

Bring the shade to the position at the top nearest to the headrail that you would like to be the top height. You may have to stop the shade manually with the stop button. Press and hold the Up and Stop buttons together for about 3 seconds looking for shade to jog twice and beep once confirming the top height being set. This process can also be performed on the control wand.

Bottom Height

Bring the shade to the position at the bottom nearest to the window sill that you would like to be the bottom height. You may have to stop the shade manually with the stop button. Press and hold the Bottom and Stop buttons together for about 3 seconds looking for shade to jog twice and beep once confirming the bottom height being set. This process can also be performed on the control wand.

MANUFACTURER TERMS AND CONDITIONS

- Catalog prices (USD) and product specifications are subject to change without notice.
- Terms are 30 days from shipment
- A 1.5% per month service charge will be applied to all past due balances
- All materials are subject to dye lot variations
- Manufacturer will not assume responsibility for any color mismatch after subsequent orders
- There is a \$40.00 charge for any returned checks
- For any product the manufacturer performs warranty service on, transportation charges are not included in warranty
- State Tax Exemption Certificates must be provided and on file for tax exempt sales production
- There will be a nominal service charge for changes or cancellations made after production has started
- The manufacturer is not responsible for printing or typographical errors within the catalog, website or other published information
- Manufacturer currently ships with most major carriers
- Following the WCMA National Safety Standards, all cords will be made 40% of the length of the product. The manufacturer suggests all cords to be permanently anchored to keep children and pets safe
- Returns must have an RGA Number and be approved
- Claims for merchandise shortages, damages or discrepancies must be made within 10 days of the receipt of goods
- These Sheerview Shades are custom made and cannot be canceled once the order has been put into

WARRANTY

This Limited Lifetime Warranty program is available to consumers who have purchased blinds and shades by (The Manufacturer). This applies to Fabric Horizontal Blinds, Sheer Shades, Roman Shades, Cellular Shades, Pleated Shades, and painted or stained valances. This warranty is effective February 1st, 2021. Product bought prior to effective date will be subject to warranty in place at time of original purchase.

What the Warranty Covers

The manufactured product is warranted against original defects in materials, workmanship or failure to operate for as long as the **original** purchaser owns the product (unless shorter time periods are provided below) on the conditions that;

- The product was properly installed in a residential or commercial dwelling
- The product was made or assembled exclusively from Lantex USA, LLC. materials and components
- The Manufacturer recommendations were followed regarding limitations and specifications
- The Manufacturer componentry are covered for 5 years
- The Manufacturer motorized components are covered for 2 years

Who is Covered

This warranty extends only the ORIGINAL purchaser of the above stated products.

The Manufacturer obligations to the Consumer are limited to the repair or replacement of parts or products found to be defective. The Manufacturer is not responsible for shipping charges or labor costs, for measuring and taking the product down or for remeasuring or reinstalling the product. Defects in product found on arrival must be reported within 10 days of delivery date confirmed by the shipping company. If not the product will be remade at full cost to the consumer.

If repairs are made under this warranty, the repairs will be made with like or similar parts.

TO RECEIVE WARRANTY SERVICE, PLEASE:

1. Contact our Customer Service department at 1.302.294.6552 and advise them of the nature of the issue. Customer Service will provide you with information as to how to proceed.
2. Please remember, product returned for warranty claims must be accompanied by the original sales receipt as well as written details regarding the nature of the problem, location of the product, etc.
3. All remake requests will need a picture or video supporting the claim before being approved.
4. If your product is returned, please retain a copy of the shipping information for your records.

What the Warranty Does Not Cover

This warranty does not cover conditions or damages caused by abuse, accidents, alterations, misuse, or failure to follow instructions for measurement, installation, use, cleaning, or maintenance. Normal wear and tear, including but not limited to the items or occurrences below, is not covered by the warranty:

- Batteries.
- Unfinished cornices.
- All fabrics can lose original intensity after long exposure to the sun. When left for extended periods in direct sunlight, plastics tend to yellow or crack. Some loss of color intensity or discoloration may occur in plastic materials or wood finishes.
- Colors may vary from lot to lot and may not exactly match samples of previous purchases.
- All cords will eventually wear out.

THE MANUFACTURER CONSIDERS THESE ITEMS OR OCCURRENCES NORMAL WEAR AND TEAR, AND THEY ARE NOT COVERED BY THIS WARRANTY. THIS WARRANTY IS EXCLUSIVE AND IN LIEU OF ALL OTHER WRITTEN OR ORAL WARRANTIES OR OBLIGATIONS AND LIABILITIES. NO PERSON IS AUTHORIZED TO EXTEND OR ALTER THIS WARRANTY. THE MANUFACTURER SHALL HAVE NO LIABILITY WHATSOEVER FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES. SOME STATES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THIS LIMITATION OR EXCLUSION MAY NOT APPLY TO YOU.

THE IMPORTANCE OF ORDERING CORRECTLY FROM THE MANUFACTURER

Place your order correctly with the manufacturer can decrease the need for remakes, refunds or returns.

Important Ordering Information:

- You must include ACCURATE measurements for the width and height (to the nearest 1/8") of the product
- You must specify IB or OB mounting required of the product
- You must include the color name, and color number
- You must include Position Control - RIGHT or LEFT

Fabric Style & Color Selection:

Woven and Non Woven fabrics come in Light filtering and Room Darkening. Choose from the color available.

Example Color Number: **S50PN100D**

- 2" - **S50**
- 2.5" - **S65**
- 3" - **S70**
- Non Woven - **PN**
- Woven - **KN**
- Printed - **BN**
- Color # - **100**
- Room Darkening - **D**

REMAKES: We understand mistakes happen and typically your per-negotiated Oops discount may apply.

REFUNDS: Refunds may be issued at the manufactures discretion.

RETURNS: Dealer must contact the manufacturer directly to obtain and return authorization.

To Find Your Cost:							
Height Up To	Width Up To						
	24"	32"	36"	42"	48"	54"	
36"	410	457	504	550	599	647	
42"	429	480	530	585	634	690	
48"	455	504	562	616	674	731	
54"	469	529	589	652	715	777	
60"	489	557	624	686	750	820	
66"	508	580	651	720	794	867	
72"	530	606	680	755	835	917	

After finding your price based on fabric size add any additional upgrade surcharges you are purchasing to total price of the shade.
